```
LinkedList = function() {
}

LinkedList.prototype.add = ...
LinkedList.prototype.remove = ...
LinkedList.prototype.size = ...
```
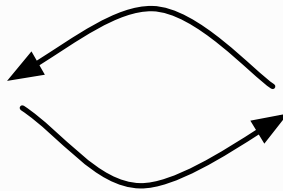

Program Under Test

```
{LinkedList :
    constructorInfo: [Object],
    methodsInfo: [
        add : [Object],
        remove : [Object],
        size : [Object]
    ]
}
```

Analyser

1010101010101010...

Executor

```
l = new LinkedList();
node = new Node();
l.add(node);
l.remove(node);
assert(l.size() === 0);
```
